

There are 4 typefaces on the page:

- Prata (Heading)
- Playfair (Heading)
- Inter (Body)
- Menlo (Accent)

Are we breaking 'rules' on purpose? Exciting if we are - can you share your thinking on this?

The 'For Dentists' link in the header navigation and the 'Refer a patient' link in the footer navigation both go to JotForm – please coordinate with Elinor over connecting this.

Remove 'Private' from 'private dentistry' in the hero subhead. (This can go back in later after NHS inspection has been carried out.)

Ferhan's qualifications are: BDS, MFDS, MBChB (shown in this order)

Amendments to the drop down menu on the enquiry form:

REMOVE: Dentist Referring A Patient

> General Dentistry (REMOVE: & Preventive Care)

> Dental Implants (REMOVE: Reconstruction)

> Treatment Under Sedation (ADD)

> Hygiene (ADD)

The founder heading Dr Ferhan Ahmed is repeated in the accent header and the header for this section – change the accent header to DUAL QUALIFIED

Wherever we reference Ferhan it should be:

- Dr Ferhan (informal)
- Dr Ahmed
- Dr Ferhan Ahmed

A note from (Dr) Ferhan appears twice. Let's change the first one to:

200+ REFERRING DENTISTS

ADD "After qualifying as a dentist" to "I went back to study medicine because I wanted to understand the whole patient, not just the teeth. Twenty years later, that philosophy still shapes every procedure I do and every conversation I have with my patients."

Until we have the new phone number, use this in the footer: 0131 667 4433

IMAGES:

We don't yet have replacement images for the stock images. I realise this is far from ideal, but to avoid delaying this page going live (the existing page is problematic for us), please use the best stock images you can. Ferhan has provided rendered images but I'm thinking high quality stock images might be better – your call.

The current image of Ferhan has been 'obviously' flipped – we let that go for the old page but I don't think this is acceptable for ongoing use. I have uploaded 3 images that I think would work better.
